**KORIKS 1400 L**

We offer six different models of hot tubs with integrated heater. Models with integrated heater stand out because of compactness, low wood consumption and nice appearance. Heater capacity is 30 kW. Hot tubs with integrated heater can be supplemented with the same accessories as all other models. For safety reasons we recommend purchasing heat protection for the chimney.

Ready-to-use set contains: acrylic or fiberglass hot tub, 30 kW integrated heater with accessories (2 m chimney, flanges, hoses, glass door for the heater, clamps), drain system, base frame, wooden cabinet (oiled fir).

# HOT TUBS WITH ELECTRIC HEATING

The sets below include: acrylic or fibreglass contents, filter cabinet (except Koriks 1400 L and Koriks 1650 L models), trap, base frame, wood finish (oiled spruce). A suitable electric heating and filter system must be selected from six sets.

We also recommend purchasing additional hot tub insulation, filter cabinet insulation and an insulated lid to save energy. Other additional equipment can be selected from the price list starting on page 17.

# HOT BATH KORIKS 11 000 L

In the beginning of 2023 we added a hot tub to our product range, which is known to be the largest in the world. The diameter of the hot tub is 3.49 m and is provided with two 50 kW heaters. The hot tub is built on a terrace made of impregnated timber. The hot tub can seat up to 20 people at a time. Thanks to two extra powerful heaters, PUR insulation and an insulated cover, the heating time is around 4-5 hours. In addition, the set includes four colour-changing LED luminaires. Seats are made of durable larch which requires no maintenance. At the ends of the base frame of the hot tub there are four lifting lugs from which the hot tub can be lifted by crane to a suitable position.

The hot tub is ready to use.

The stairs can be installed on any side you wish.

<b>DIAMETER OF THE PLASTIC PART:</b>	3490 mm
<b>BASE FRAME:</b>	3490 mm × 4200 mm
<b>HEIGHT:</b>	1500 mm + 120 mm cover
<b>CAPACITY:</b>	11000 L
<b>WEIGHT:</b>	1400 kg
<b>HEATING TIME:</b>	5-38° C/4-5 h
<b>THE SET INCLUDES:</b>	light blue fiberglass tub, base frame, wooden finishing, drain system, 2 x 50 kW external heater, insulation, insulated cover, 4 colour-changing LEDs, seats made of larch, stairs with a handrail, terrace under the hot tub 3490 x 4200 mm and a drink plate.

**PRICE 12480 €**

# POOL KORIKS 11 000 L

The pool is transported in two parts.

The pool ready to use.

## POOL KORIKS 11 000 L

**3139 €**

The capacity of this fiberglass pool is 11 000 L. Diameter: 3500 mm, height: 1200 mm. It is possible to install the pool into terrace/ground but the pool may also be used as it is (on the ground). Water can be heated with our 60 kW pool heater. We offer filter system and electric heaters to be used with the pool as well as other accessories.

### ACCESSORIES

# HOT TUBS ON TRAILER

We offer two hot tub trailer models in our product range. The set includes several accessories that make using this hot tub on wheels a great experience. The hot tub on a trailer is suitable for both rental and summerhouse use.

## KORIKS 1600 L FIBERGLASS HOT TUB

Up to 8 people

HIND: 5690 €

## KORIKS 1650 L FIBERGLASS HOT TUB

Up to 8 people

HIND: 5986 €

### SET CONTAINS:

fibreglass interior, base frame, 37 kW outdoor oven (with stainless steel front panel), glass door, composite finish, stairs (composite), drink trays (only with 1600 L model), insulated cover (urethane), trap, trailer with registered weight of 750 kg. Additional accessories (e.g. LED light, bubble system) can be ordered for an additional fee.

From 2024, the hot tub trailers we offer have EU type approval.

This means that the dimensions, weights and purpose of the trailer in the technical passport correspond to reality.

The hot tub trailers we offer are known to be the only EU type approved hot tub trailers.

# HEATERS

Our heaters are made of 3 mm thick quality marine aluminum, which makes them durable and with a long lifetime. We offer heaters with different capacities and to place inside or outside the hot tub.

# BRASERO GRILL

The Brasero grill is suitable for multipurpose use. With the grill, you can grill, fry, cook, keep warm a very wide range of foods (meat, fish, eggs, vegetables, baked goods, etc.). In addition, it can also be used as a regular fireplace.

The grill is made of durable Cor-Ten® steel. Cor-Ten® is a strong steel with a natural and durable patina created on the surface by the influence of the external environment, which resists time in an unique way. When used correctly, it is expressive, long-lasting and maintenance-free. The upper part of the grill is made of 10mm thick S355 carbon steel.

The grill table module is also made of Cor-Ten® steel covered with a larch board. Larch is also a practically maintenance-free and long-lived type of wood.

## BRASERO GRILL

WEIGHT: 40 kg

PRICE **410 €**

## GRILLING SKEWERS

(4 pc + holder)

PRICE **79 €**

# KORIKS-FIIBER

## CREATES QUALITY AND EMOTIONS!

### About the company

Koriks-Fiiber has been manufacturing fibreglass products flanges since 1976 and fibreglass hot tubs since 2008. We are currently one of the largest manufacturers of hot tubs in the European countries with extremely wide range of models.

As a result of continuous product development and the design of new models, our product range consists of twelve fibreglass, one polyethylene and one model of acrylic hot tub. In addition to our models, we subcontract various models of hot tubs for several well-known hot tub sellers in the European countries.

We are constantly working on product development and design. We only use the best quality materials in production, and therefore we can offer a two-year guarantee to inner elements of our hot tubs and the heaters we produce.

Our product range includes a wide range of accessories that make the use of the hot tub easier and more convenient. The modern hot tubs with all their accessories are beginning to be more and more similar to twice as expensive outdoor spa baths.

Our main customers are both dealers and private customers in Estonia and in several European countries. Thanks to our good cooperation partners in logistics we can provide transportation across Europe with reasonable prices.
