with internal heater 1400 €

with external heater 1656 €

WOODEN HOT TUBS

Our wooden hot tubs are manufactured of quality wood or thermally modified wood and only fasteners of stainless steel have been used. The tubs have been finished with finishing tar which is ecologically clean and gives the wood a lovely, dark brown and transparent surface, while the surface of the wood remains durable and easy to clean. You can order the wooden hot tub with external or internal heater.

WOODEN HOT TUB (with internal heater)

ACRYLIC HOT TUB KORIKS 1650 L

NEW IN KORIKS: ACRYLIC HOT TUB!

Sterling Silver

Glacier Mountain

Tuscan Sun

KORIKS 1650 L

The capacity of Hot Tub Koriks 1650 L is 1650 litres of water and it is designed for 4-6 people. Acrylic hot tub is hygienic and very easy to clean and maintain. Colour options for acrylic tub are Sterling Silver, Glacier Mountain och Tuscan Sun.

Ready-to-use set contains: acrylic hot tub, base frame, wooden cabinet, drain system, 30 kW external heater (steel front panel) with accessories (2 m chimney, flanges, hoses, clamps).

LENGTH:	2050 mm	HEIGHT:	1150 mm
WIDTH:	2050 mm	WEIGH:	230 kg

Set price: 2290 €

Set price (heater with stainless steel front panel): 2390 €

Insulated corner: 40 €* (in case of filter system and electric heater)

Acrylic inner element (build-it-yourself version): 1080 €

Terrace set: 1965 €**

* You'll find the prices of other accessories on the last pages of this pricelist.

** Terrace set includes: acrylic hot tub, base frame of treated timber, drain system, 30 kW external heater (steel front panel) with accessories (2 m chimney, flanges flanges, hoses, clamps).

HOT TUBS WITH INTEGRATED HEATER

We offer two different models of hot tubs with integrated heater – Koriks 1650 L and Koriks 1700 L. Models with integrated heater stand out because of compactness, low wood consumption and nice appearance. Heater capacity is 30 kW. Hot tubs with integrated heater can be supplemented with the same accessories as all other models. For safety reasons we recommend purchasing heat protection for the chimney.

Ready-to-use set contains: acrylic or fiberglass hot tub, 30 kW integrated heater with accessories (2 m chimney, flanges, hoses, clamps), drain system, base frame, wooden cabinet (oiled fir).

KORIKS 1650 L 2340 €

KORIKS 1700 L 2042 €

Glass door - **40 €** (will be added to the price of ready-to-use set)

HOT TUBS WITH ELECTRIC HEATING

We provide electric heating solutions for most of our hot tub models. Electric heating is convenient, it can be used in locations that do not allow using wood-heated hot tubs and it enables having hot water in the hot tub all year round. Hot tubs with electric heating can be supplemented with the same accessories as all other models. As the hot tubs with electric heating have many different solutions, we recommend contacting our technical support in order to examine various possibilities.

Ready-to-use set contains: acrylic or fiberglass hot tub, 3 kW electric heater with accessories, filter system cabinet (except for model Koriks 1650 L), filter system, filter balls, drain system, base frame, wooden cabinet (oiled fir). In order to save energy, we additionally recommend purchasing hot tub insulation, filter system cabinet insulation and insulated cover.

About the company

Koriks-Fiiber has been manufacturing fibreglass products flanges since 1976 and fibreglass hot tubs since 2008. We are currently one of the largest manufacturers of hot tubs in the Nordic countries with extremely wide range of models.

As a result of continuous product development and the design of new models, our product range consists of seven fibreglass and four wooden hot tub models, one polyethylene and one model of acrylic hot tub. In addition to our models, we subcontract various models of hot tubs for several well-known hot tub sellers in the Nordic countries.

We are constantly working on product development and design. We only use the best quality materials in production, and therefore we can offer a three-year guarantee to inner elements of our hot tubs and the heaters we produce.

Our product range includes a wide range of accessories that make the use of the hot tub easier and more convenient. The modern hot tubs with all their accessories are beginning to be more and more similar to twice as expensive outdoor spa baths.

Our main customers are both dealers and private customers in several European countries, with 90% of our products flanges being exported to Finland, Sweden, Norway and Denmark. Thanks to our good cooperation partners in logistics we can provide transportation across Europe with reasonable prices.
